PHILOSOPHY OF MIND

INSTRUCTOR: SAHAR JOAKIM

FINAL EXAM

I. Please give a brief answer (3-5 sentences) to the following questions:

(1) What is philosophy?

(2) What is philosophy *of mind*?

(3) What is Behaviorism?

(4) What is Functionalism?

(5) What is Physicalism?

(6) What makes some *thing* a “person”?

(7) What is Cartesian dualism?

(8) What is an intensional object?

(9) What are 'qualia'?

(10) What is the difference between a necessary condition and a sufficient condition?

(11) What is consciousness?

(12) What is the different between human and artificial intelligence?

(13) What is the difference between introspection and observation?

(14) *Do you think* that the mind and the brain are separate entities?

(15) *Do you think* that computers (possibly more advanced computers in the future) can think, and that they can be considered persons?

(16) Write one sentence you know for sure is true without any doubt. *Explain.*

(17) Name three philosophers. Write one thing you know about each philosopher.
